International opportunities for Ph.D. students A.A. 2026-2027

Computer Science Area

Delegato della Giunta del
Dottorato di ricerca di Informatica
Prof. Fabio Scotti
2026-04-01

Delegato all'Internazionalizzazione
Dipartimento di Informatica
Prof. Davide Rocchesso

Outline

1. Introduction
2. Erasmus Traineeship Outgoing - The main funding opportunity
3. Short-term Mobility Opportunities
 1. Blended Intensive Programme (BIP)
 2. SEED4EU+ Projects
 3. Flagship 3 Initiatives
4. Search Engine for International Opportunities - Issues and examples
5. Key Contacts

Introduction

- Currently, there are **no dedicated** international mobility calls for **PhD** students.
- Until the academic year 2023/24, PhD students could apply for the **Erasmus+ Study Call**, but this option is no longer available.
- However, the **Erasmus+ Traineeship Outgoing** program remains accessible, offering the best funding option for **PhD** students to conduct research abroad.
- **Physical mobility → GRANT** (only virtual → No grant)

Erasmus+ Traineeship Outgoing deadline: 12.05.2026

- The Erasmus+ Traineeship Outgoing program is currently the primary way for our PhD students to secure funding for international research activities.
- [Erasmus Traineeship Outgoing](https://www.unimi.it/it/internazionale/studiare-allestero/tirocini-allestero/erasmus-traineeship-outgoing)
<https://www.unimi.it/it/internazionale/studiare-allestero/tirocini-allestero/erasmus-traineeship-outgoing>
- Open to all regularly enrolled PhD students, including first-year students, as long as the traineeship is completed before their thesis defense.
- Recent graduates can apply if enrolled at the time of the application and complete the traineeship within 12 months after graduation.
- The Erasmus 2021/2027 programme includes the UK

Erasmus+ Traineeship Outgoing deadline: 12.05.2026

- Two yearly editions:
 - Erasmus+ Traineeship I (2026/27 edition):
General call (Expected deadline: 12.05.2026)
 - Erasmus+ Traineeship II (2025/26 edition):
Focused on specific themes and institutions.
(Previous deadline: 07.11.2025 - with one agreement for CS)
- **The spring call is more suitable** since it is open to any site
- The autumn traineeship call provides a list of available agreements.
- Proposals for new agreements can be advanced for the next autumn call.

Erasmus+ Traineeship Outgoing deadline: 12.05.2026

Important Considerations for Erasmus+ Traineeship Applications

- When applying for the **Erasmus+ Traineeship Outgoing**, applicants should carefully read the call details. The application includes:
 - A detailed research project description aligned with the host institution's expertise.
 - **A letter from the foreign supervisor confirming agreement on the research topic, visit duration, and expectations.**
- Failure to provide complete and accurate documentation may result in rejection of the application.

Erasmus+ Traineeship Outgoing deadline: 12.05.2026

COMMITMENT LETTER

**(Please print out on company or research institution's
headed paper before signing)**
Please fill in the document on your computer

We hereby confirm that we are willing to host **Mr/Ms.**
student¹ of the University of Milan, as an Erasmus + trainee in our institution, provided that he/she obtains
an Erasmus + traineeship grant from University of Milan². In this case we agree to sign a **learning
agreement for traineeship** with the student and the University of Milan.

We intend to entrust him/her with tasks and responsibilities according to his/her studies, qualifications and
knowledge³.

Traineeship duration:

Students: range 2-12 months within 31/12/2026

Phd students: 2-12 months or 5-30 days within 31/12/2026

The traineeship will start on **and end on**

Working hours per week (18 - 40 hours per week, *optional*)

Short-Term Mobility Opportunities: Blended Intensive Programme (BIP)

Blended Intensive Programmes (BIP)

- BIP are international learning activities **combining online collaboration and a short physical mobility**, designed around a “challenge-based” approach.
- Minimum 3 ECTS must be awarded under this kind of programmes, and the involvement of at least 3 European universities is required.
- There are [Erasmus+ BIPs and 4EU+ BIPs](#)
- Check the calls (three in a year)
- Most of the BIPs are not for doctoral students

Example of a Blended Intensive Programme

course: DeepLife4eu

- <https://deeplife4eu.github.io/>

The course format will comprise a weekly **60-minute online lecture** and a weekly **hybrid (in-person/online) practical Python session**.

- Lectures will be given online by [teachers](#) from all participating universities. Lectures and practical exercises on all three application areas will be centered around one recent publication illustrating a specific application and method.
- The course will end with a 2-day workshop and hackathon meeting in Heidelberg on **14-16 June 2024** during which students will be able to implement a short project and listen to scientific lectures.

Deep Learning in Life Sciences -
Edition 2025

++++ [LINK TO THE ZOOM LECTURES](#) ++++ (registration key available through your instructors!)

As part of the **Seed4EU+ action within the 4EU+ alliance of European universities**, Heidelberg University will coordinate a joint course on Applications of Deep Learning in Life Sciences (DeepLife) involving the universities of Paris-Sorbonne, Warsaw, Prague, Milano and Heidelberg. The purpose of this course is to give an insight in the very active field of DL in the field of biomedicine and highlight recent examples of applications in three distinct areas:

1. single-cell genomics
2. protein bioinformatics
3. biomedical image analysis.

Organization

This course will be organized in 3 blocks over 9 weeks (start: week of 24.02.2025)

1. DL in single-cell genomics – 3 weeks
2. DL in protein bioinformatics - 4 weeks
3. DL in image analysis – 2 weeks

Check the [program](#) for details.

The course format will comprise a weekly **60-minute online lecture** and a weekly **hybrid (in-person/online) practical Python session**.

Short-Term Mobility Opportunities: SEED4EU+

SEED4EU+ Projects

PhD students may also participate in short-term mobility programs under the **SEED4EU+ projects**.

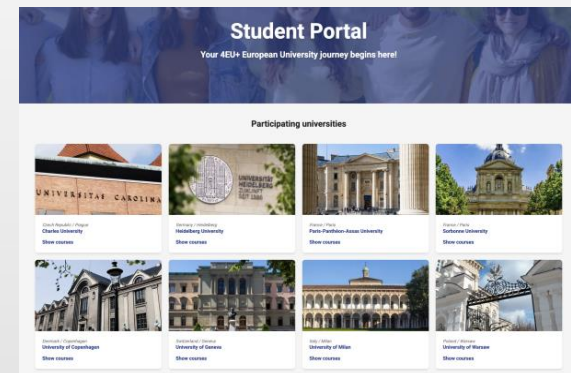

[SEED4EU+ Information](#)

<https://4euplus.eu/4EU-1092.html>

These are calls funding innovative joint projects between at least three universities of the Alliance

Browse the [Course Catalogue](#) of the 4EU+ universities through the [Student Portal](#)

Contact mobility.out for additional information

Short-Term Mobility Opportunities: Flagship 3 initiatives

Examples:

- [AI in Medicine](#) workshop
- [Quantum Information and Quantum Many-Body Theory](#)

Unimi search engine for international calls

- <https://www.unimi.it/it/internazionale/studiare-allestero/cerca-una-opportunita-internazionale>

The screenshot shows the Unimi website's search interface for international opportunities. At the top, there is a navigation bar with the Unimi logo and various menu items like 'Unimia', 'Registrar', 'Ariel', 'Libraries', 'Who and Where', 'Webmail', and 'laStatale'. Below this, there are sub-menus for 'Education', 'Study', 'Research', 'Third mission', and 'Intern'. The main content area is titled 'International opportunities' and features a search form with the following fields: 'Title or code' (text input), 'Profile' (dropdown menu with 'PHD students' selected), 'Type of international opportunity' (dropdown menu with '- Any -' selected), and 'Study area' (dropdown menu with '- Any -' selected). A 'Search' button is located below the form. Below the search form, there are two search results. The first result is 'Call for applications 4EU+ Collegio Futuro - A 4EU+ college for future leaders of a sustainable European Future' with a 'Deadline' of 'Wed, ...'. The second result is '4EU+ Entrepreneurial and Intrapreneurial Project Management' with a 'Deadline' of 'Wed, ...'. At the bottom, there is a 'See also' section with a link to 'International opportunities - archive'.
